

# Welcome to Residency!

As part of residency orientation to the Conemaugh Health System, and in preparation for daily treatment of patients, all residents must complete the Graduate Medical Education Boot Camp program at Conemaugh Memorial Medical Center's [Medical Skills Learning Center](#), an Accredited Education Institute.

Information is presented online as well as in-classroom training. All residents are expected to complete the required online modules prior to attending in-classroom scheduled sessions. Online materials will provide each resident a foundation to succeed during Boot Camp.

All didactic materials can be found at [www.conemaugh.org/GMEBootCamp](http://www.conemaugh.org/GMEBootCamp).

**June 21, 2018 • ACLS training followed by first skills lab**

A full schedule for Boot Camp is located on the website listed above.

## We look forward to working with you!

Leah Patton, Manager  
Medical Skills Learning Center

Mike Mincek, Simulation Technician  
Medical Skills Learning Center
